

ACOUSTIC LOOPSOUNDER RED, MAX. 96 DB, DIN

AVS3000A

Art no.: DL-520-WS-R

Loop powered intelligent D-Loop sounder for acoustic alarming with bidirectional isolator according to EN 54-3 and EN 54-17

- Control, monitoring and powering directly via the D-Loop protocol
- Integrated automatic switch function of the output at "external signal line on/off" signal by the fire control panel
- Programming option for 18 different tones, 4 alarm scenarios and 4 volume levels
- Monitoring of the operating status via D-Loop
- Automatic and manual addressing with D-Loop
- Integrated isolator
- Functions completely integrated via D-Loop protocol
- Elegant wall mounted housing

Technical data

Supply Voltage	30 V to 41 V DC on 2-wire bus (nom. 40 V DC)
Quiescent Current	200 μ A
Alarm Current	20 mA (+3 mA with synchronisation)
Ambient Temperature	-10°C to +55°C
Storage Temperature	-10°C to +50°C
Humidity	max. 93 %
Protection Class	IP 21C
Weight	200 g
Material	ABS
Color	Housing red
Standards	EN 54-3, EN 54-17
Dimensions (H x D)	89 x 99 mm
Loudness	max. 96 dB, DIN
