## LOOP MODULE FOR FIRE CONTROL PANEL DC 510/520

M1BT

Art no.: M1BT

---

Microprocessor controlled loop interface for DC 510/520 for the uninterruptible and short-circuit-proof use with 256 devices of the series D-Loop.

- Operation of the D-Loop devices in loop structure
- 2-wire-system loop with up to 3.500 m loop length
- Easy and flexible installation and initialization via automatic and manual addressing
- Freely configuration of the open collector outputs of the D-Loop devices
- System-plug to connect to the DC 510/520 mother board
- System-socket to connect additional modules
- D-Loop connection via terminal blocks up to 2,5 mm<sup>2</sup>

### Technical data

Ambient Temperature	-5°C to +40°C
Humidity	0 % to 93 % (not condensing)
Dimensions (H x W x D)	125 mm x 100 mm x 20 mm
Weight	
Interfaces	1 x D-Loop
